

A special introductory sailing course for CSA members only

2017 has been a year of new initiatives. This has created increased usage of CSA by existing members and has brought in many new members. Our social events and our racing programs are generating an enthusiastic response. Thanks to all of you.

New initiative:

Starting today our Adult Sail program is announcing a new initiative that will benefit long time members and new members alike.

We are now offering a three-hour introductory sailing lesson utilizing our existing members who will be able to work off as much as their entire membership fee for the following year by giving sailing lessons.

Students:

At the end of this three hour lesson, you should be able to tack, jibe, dock, depart (or beach in the case of catamarans) and know the basic right-of-way rules. After three hours, the instructor will step off of the boat and you will have time to practice what you just learned.

Associate Members can use one of your five free boat rentals. All of these lessons will be on rental boats unless you own a boat and need a lesson on your boat.

At this time, the program is only for members at the very very low price of \$75.00 per lesson. That's by yourself, or you can arrange to share the cost with another member. No more than two students per lesson.

If you want a bonus, show up early and learn how to launch the boat properly. This is something that you should know.

Bring your own life jackets.

If you are interested in signing up for this program [click here](#). We can help you get connected with an instructor.

Experienced members – Share your love of sailing and work off your entire dues

Yes, you can get paid for teaching new sailors the basics on our rental boats or on their boat. You don't need to be certified as an instructor to teach this simple three -hour introductory lesson.

It is easy to qualify by applying here. You will learn the simple details of this program during this qualifying process. Prospective instructors will be notified when they have been approved.

For a three-hour lesson with up to two students you will be credited towards your membership dues. You can work off as much as your entire membership dues for the following year. Then earn cash after that.
